THE ALL-NEW 2019 RDX

REFINE

When you put the driver first, when you build around their desires, when you make sure every innovation is an improvement in performance, that is the spirit of Precision Crafted Performance, and that is how we create the all-new 2019 Acura RDX.

THE NEXT GENERATION OF PRECISION CRAFTED PERFORMANCE

For the past thirty years, we've assembled troublemakers, scientists and daydreamers, bent on pushing every boundary into submission. We've followed our gut instead of prevailing wisdom, found opportunity in the face of adversity, and never taken no for an answer. And by doing so, we've found unexpected ways to craft intuitive performance vehicles that are built around you—the driver—that bend technology to your will, that put you first.

It's what we call Precision Crafted Performance. It fuels our passion for building vehicles and flows into every aspect of our company. It's a belief and a promise: to challenge convention and ourselves at every opportunity, to always look for a better way to elevate driving for the betterment of us all.

**NOT ALL HORSEPOWER COMES
FROM THE ENGINE**

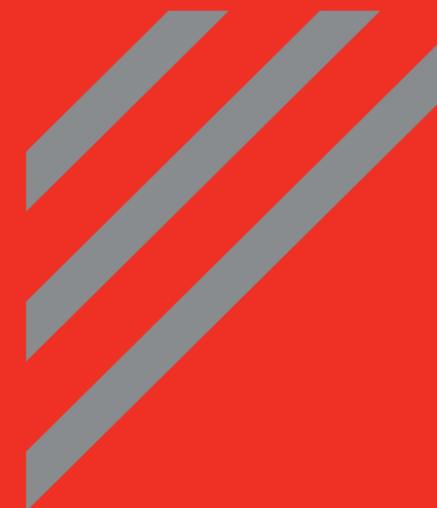

The RDX has been designed from the ground up with the Acura Precision Concept and Precision Cockpit as its inspiration. This is evident with just one glance, as the lines of the RDX grab the eye, hold it tight, and lead it across its sculpted body. Low and wide with flared fenders, the aggressive lines announce a focus on performance. And with Jewel Eye™ LED headlights and LED dragon tail taillights, both arrival and departure promise to be mesmerizing.

A-SPEC

TURBOCHARGED STYLE

When equipped with the available A-SPEC package, the RDX injects the Sport Utility Vehicle concept with even more sport. Every detail is designed with performance and style in mind, like the bold 20-inch five-spoke Shark Gray alloy wheels that command attention and dominate corners. This SUV is always in attack mode, with an aggressive front bumper complete with LED fog lights and piano-black window trim around the side. To give the competition something to stare at, the rear is equipped with a piano-black diffuser, bold dual oval exhaust outlets and dark exterior trim accents. The A-SPEC package is available in a variety of sporty colours, including an A-SPEC-exclusive Apex Blue Pearl, and is finished with the distinct A-SPEC badging.

A-SPEC INTERIOR STYLE

In the RDX, every decision, including styling, is made first for the driver, which is why A-SPEC styling begins at the steering wheel. Front and centre is an A-SPEC sports steering wheel with a thicker grip for improved confidence while handling; paddle shifters inspired by the NSX supercar; glistening metal sports pedals; and a satin silver-faced instrument panel, glowing red to further complement your performance desires.

A-SPEC

A-SPEC INTERIOR COMFORT

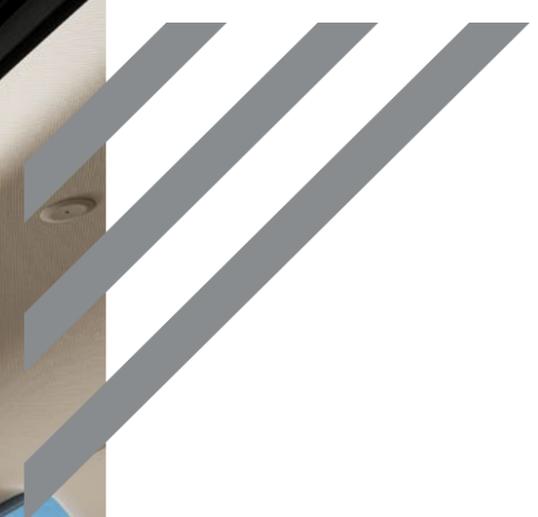

Inside the RDX A-SPEC, comfort is found immediately in the exclusive red-leather interior, complete with sporty black Alcantara inserts. If you prefer an even sleeker look, you can select a completely black interior composed of leather and Alcantara. Both options are finished with exclusive sports-oriented stitching, as well as bold seat bolsters, for when your performance side takes over.

IMMERSE YOURSELF IN THE RDX

The second you are wrapped by the calm, quiet, well-appointed interior of the RDX, you realize the cabin is engineered to not only offer a premium experience in comfort, but also in focus and control. Fine leather is everywhere, rich in texture and soft to the touch—seats, door panels, the centre console, even across the dash—its supple and calm notes contrasting nicely with the strong, taut lines of the cabin's genuine natural wood and brushed aluminum trim.

HERE COMES THE SUN

Of all the amenities inside the RDX, two of the finest are space and silence, which is why we equipped every RDX with an ultra-wide panoramic moonroof, to dramatically fill the cabin with comforting light and increase its sense of space. It's also why we triple-sealed the doors, used acoustically designed glass, and even engineered Active Noise Control to cancel out exterior noise. Silence and space, more and more limited in the outside world, are plentiful in the all-new RDX.

Even thrones don't hold this much power. Available 16-way power-adjustable front seats including 4-way power adjustable lumbar support, a 4-way adjustable headrest, a power thigh extension, a power side bolster support, heating and ventilated cooling were designed completely from scratch on a frame made from ultra-high-strength steel. Because the better the seat, the better the connection to the road.

ONE TOUCH FOR EVERY MOVE

OUR FOCUS IS YOUR FOCUS

Kime, in martial arts, means both “focus” and “power,” as the two are considered dependent on each other. This perspective led us to a driver-centric command-centre approach we call the True Touchpad Interface. First, we moved the “touch” off the dash-mounted display, eliminating awkward reaches and endless fingerprints, to where it makes much more sense: an ergonomically-friendly tactile surface in front of the centre armrest. Then, we installed the world’s first application of absolute positioning—where you touch on the pad is where you engage on the display. The result? A natural, instinctive, nearly effortless command of navigation, music, compatible cell phone and vehicle information, all while keeping the driver focused on what matters most: driving.

EFFORTLESSLY NAVIGATE YOUR NAVIGATION SYSTEM

In the 2019 RDX, even information management is a high-performance experience. Resting above the dash, in concert with the driver’s natural line of sight, a 10.2-inch HD display effortlessly delivers navigation and audio information. Effortlessly, because it’s managed by both the True Touchpad Interface and a brand-new natural-language voice-recognition system. No more distracting robotic commands and multilevel requests to find a destination. Now, simply say the address or the name of your destination—even ask for suggestions such as the closest sushi or Italian restaurant in the area—and the route will be delivered. It’s a dedication to maintaining driver focus that’s furthered through navigation that offers 3D building and terrain information. Along the way, you’ll stay connected thanks to standard Apple CarPlay™^{2,4} compatibility, offering access to Siri,[®] Apple Maps, and more.

ACURALINK™^{2,4,9}

In addition to AcuraLink™ features such as remote door lock/unlock, automatic collision notification and AcuraLink Assist services, the RDX enhances your AcuraLink™ experience with a host of new key features, including remote engine start, speed alert, geo fencing, and Last Mile—which provides walking directions from your parking location to your final destination. And with the built-in Wi-Fi hotspot,^{4,8} you’ll stay connected wherever the road takes you.

MAKE EVERY TURN YOUR FAVOURITE TURN

There's more to the new direct-injection, VTEC[®] all-aluminum, turbocharged engine than an awe-inspiring two hundred seventy-two horsepower. There's also the fact it's been tuned for greater power and acceleration with a peak torque at only 1600 rpm. Red-light-to-green-light "go" power is perfectly mated to a 10-speed automatic transmission and is instinctively connected to your desires through performance-engineered Sequential SportShift[®] paddle shifters.

272 HP

Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.

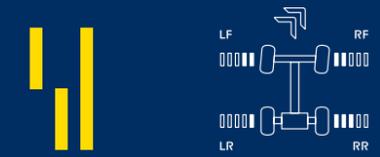

NOT EVERY DRIVE IS RACETRACK-PERFECT

Developed on the most demanding tracks and roads around the world, Super Handling All-Wheel Drive™² (SH-AWD®) delivers superior performance and control in high-performance driving conditions, even when the weather and road conditions are far from high-performance. SH-AWD® is already renowned for its ability to create a more stable driving platform by instantly distributing power to each wheel based on wheel speed, steering angle, lateral G-forces and yaw rates, but we thought we could make it even better. Through testing in all conditions—rain and sun, snow and sleet, track-perfect corners, snow-covered corners and gravel-filled corners—we were able to further improve both torque capacity and torque vectoring with chalkboard-filling equations that turn the RDX into a finely tuned performance machine, regardless of the road.

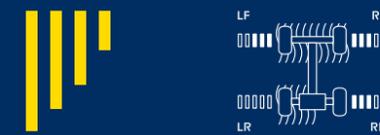

Cornering

When cornering on dry surfaces, up to 70 percent of the torque is distributed to the rear. Torque vectoring allows up to 100 percent of that power to be distributed to the outside rear wheel, improving control and helping rotate the RDX through the turn.

Lane Change

For increased stability during lane changes, the SH-AWD® system is designed to transfer power to the inside rear wheel.

Slippery Road

Under slick conditions, SH-AWD® is designed to actively send power to the wheel with the most traction.

Highway Cruise

To help with fuel efficiency, up to 90 percent of the power is sent to the front wheels when cruising in a straight line.

SH-AWD

Choose Snow mode for those snowy days when you just can't stay inside, Sport and Sport+ for those weekend days when you want to conquer an empty mountain road, and Comfort when all you want to do is cruise home after a day at work.

PERSONALIZE YOUR PERFORMANCE

Inside the RDX, Acura's Integrated Dynamics System (IDS) offers four unique drive modes that match the dynamic response of the SUV to both your mood and your driving environment. Just as you would click on a song, the turn of a dial is all it takes to instantly adjust everything from throttle response and SH-AWD® settings to engine sound, suspension settings, shift points, and even the level of roar from the tailpipe.

ADAPTIVE DAMPER SYSTEM

Go further with the available Adaptive Damper System, which is designed to allow the RDX to remain soft and comfortable during highway cruising, yet firm when the road requires high-performance handling, by adjusting responsiveness based on driving conditions for true driving comfort.

MUSIC THAT WRAPS AROUND YOU

SUV OR CONCERT HALL?

The world's best concert halls are engineered to offer a fully immersive listening experience. So too is the RDX. Rather than taking the conventional route of asking a top-end audio manufacturer to slap in their sound system, we asked eight-time Grammy® award-winning producer and engineer Elliot Scheiner to craft an audio system engineered exclusively for the cabin of the RDX. The result: the available ELS Studio® 3D Premium audio system with 16 speakers, including four in the ceiling, and 710 watts of power that create a three-dimensional midair suspended sound image that's precisely tuned for each occupant, completely immersing them in the music. It is most likely the world's only 272-horsepower concert hall.

**CARRY MORE.
DO MORE.**

ROOM TO GO. ROOM TO GROW.

The interior of the RDX is designed to support you in everything you do. If you're choosing an SUV, odds are you are doing a lot and doing it with a lot of family and friends. So not only is rear-seat comfort as refined as front-seat comfort, including remarkable rear legroom along with a flat floor to hold three adults comfortably, but the RDX also offers an incredibly abundant 881 litres of cargo capacity, including smart underfloor storage, all of which is easily accessed through the power-operated and available hands-free tailgate.

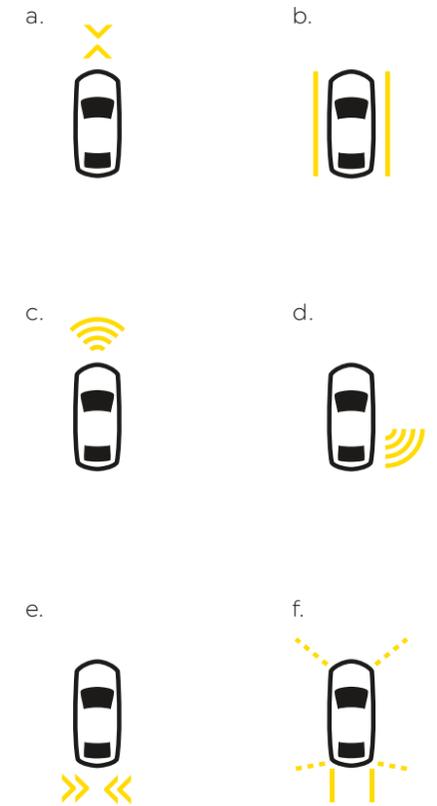

THE MOST IMPORTANT PERSON ON THE ROAD IS EVERY PERSON ON THE ROAD

AcuraWatch™

Standard on the RDX, our AcuraWatch™ suite of advanced safety and driver-assist technologies is a network of systems designed to increase awareness and support the driver, working to help prevent, mitigate and in some cases even avoid impacts. Sensors are designed to continuously monitor the vehicle's surroundings and can warn of potential threats, provide steering input to help keep you in the centre of a detected lane, help apply brake pressure to maintain a set interval from vehicles ahead and even emergency-brake in some cases to help avoid or mitigate the risks of frontal collisions.

In addition, our available surround view camera system is engineered to give you a 360-degree view of the space around the RDX.* With six unique camera views, parking sensor information and dynamic guidelines that show your expected path, you'll feel more connected to your surroundings than ever before. The available colour head-up display (HUD) projects helpful navigation information, speed and traffic signs, quick access to audio and phone as well as safety warning alerts onto your windshield into your line of sight.

- a. Forward Collision Warning (FCW) system²
Collision Mitigation Braking System™² (CMBS®)
- b. Lane Departure Warning (LDW) system²
Lane Keeping Assist System² (LKAS)
Road Departure Mitigation (RDM) system²
- c. Adaptive Cruise Control (ACC) with Low-Speed Follow (LSF)²

AT ITS
BEST
WHEN
THINGS
ARE AT
THEIR
WORST

ADVANCED COMPATIBILITY ENGINEERING™

The safest collision is the one you avoid. That's reason enough to consider the high-performance RDX with standard AcuraWatch™ advanced safety and driver-assistance technology. However, some accidents are unavoidable. That's why Acura's next-generation Advanced Compatibility Engineering™ (ACE™) body structure was designed to absorb and disperse frontal impact energy more evenly around the vehicle, so less of it transfers to what really matters: the vehicle's occupants. Moreover, frontal crash compatibility is designed into the structure, so in the event of a collision with a smaller or larger vehicle, the occupants of both vehicles, not just those in the Acura, are better protected. But we didn't stop there. We innovated the structure around the doors, making them four to five times stronger than traditional-grade automotive steel, through laser welding, hot stamping, and the use of ultra-high-strength steel, all to improve cabin strength and help to reduce the effects of an impact.

ACCESSORIES

Choose from an array of Acura Genuine Accessories that give you the practical luxuries and advanced styling that will bring you together with your machine.

PACKAGES

CANADIAN ULTIMATE PACKAGE

19" Alloy wheel
All-season floor mats, high wall
Cargo cover
Cargo tray, folding
Door sill trim, illuminated
Lower bumper garnish, front
Roof rack crossbars, silver
Roof rack rails, chrome
Tailgate garnish, chrome
Welcome light

PROTECTION PACKAGE

All-season floor mats, high wall
Cargo tray, folding

UTILITY PACKAGE

Running boards
Roof rack rails, chrome or black
Roof rack crossbars, silver or black

TOWING PACKAGE

Trailer hitch
Trailer hitch harness
Trailer hitch ball
Trailer hitch ball mount
Trailer hitch garnish cover

ADDITIONAL ACCESSORIES AVAILABLE

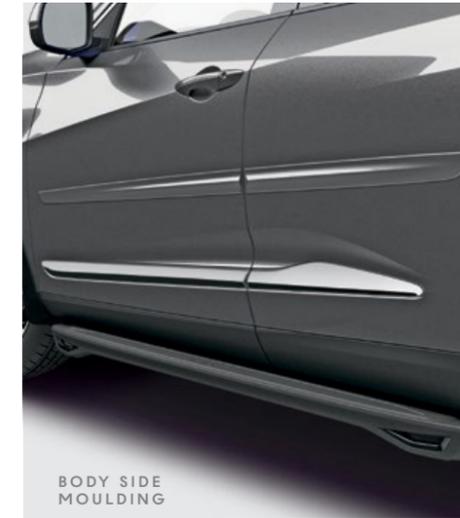

Crossbars storage bag
Door edge film
Door edge guards
Door handle film
Engine block heater
Fog lights
Heated steering wheel
Parking sensors
Premium carpet mat set
Rear bumper appliqué
Rear emblem, black – RDX
Rear emblem, black – SH-AWD
Rear metal panel protector

Rear seat cover
Roof rack bike attachment
Roof rack box, long
Roof rack box, short
Roof rack fork mount bike attachment
Tailgate kick sensor
Wheel lock, chrome or black
Wheel lug nuts, black

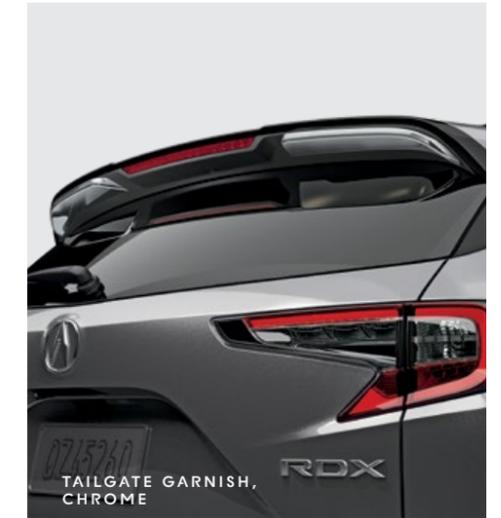

Accessorized RDX Elite in Gunmetal Metallic shown with 20" Alloy wheels, Running boards, Lower bumper garnish, front, Roof rack rails and crossbars in black.
Accessories listed in the packages may also be added individually to your RDX.

20" ALLOY WHEEL

BODY SIDE MOULDING

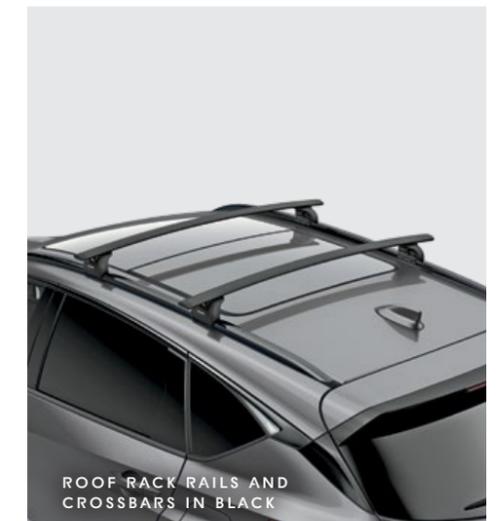

TAILGATE GARNISH, CHROME

ALL SEASON FLOOR MATS, HIGH WALL

CARGO NET

ROOF RACK RAILS AND CROSSBARS IN BLACK

- Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
- None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For more comprehensive product and feature information, limitations and restrictions, please visit www.acura.ca/disclaimers and refer to your vehicle's Owner's Manual.
- For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.
- Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.
- Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.
- Map Database of the Acura Navigation System covers major metropolitan areas in Canada and the 48 contiguous U.S. states. For a list of current, detailed coverage areas, refer to the Acura website, www.acura.ca.
- HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.).
- New vehicles are equipped with a complimentary time or data trial period, whichever comes first. After the trial period, contact AT&T to purchase available data plans. 4G LTE connection speeds may vary by region.
- Subscription required. Complimentary trial – 4 years for Security, 90 days for Remote, 90 days for Concierge – included, after which fees, taxes and other charges will apply in order to continue subscription. The availability of certain cellular networks is required for AcuraLink to operate properly. Service interruptions may occur and/or vehicle system upgrades may be required if cellular network availability is compromised. Ask your dealer for full terms and conditions.
- Coverage varies by market.
- Only available in certain areas. Includes a no-charge trial of three months.
- Estimated fuel consumption based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>.
- Based on SAE J1100 cargo volume measurement standard.
- Based on SAE J1100 cargo volume measurement standard, plus rear footwell space and front seats moved forward.

Always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in a rear seat. Properly secure all items stored in the cargo area. Always read the vehicle owner's manual for detailed vehicle operation and feature information.

Acura Canada reserves the right to terminate or change any of the services and/or features listed in this brochure at any time, for any reason. Some features require registration. Certain features may transmit to Acura Canada and/or other service providers a vehicle's location, operating conditions or other information that may be tied to the vehicle identification number (VIN) and can be combined to track a vehicle. For Acura Canada's data use and privacy policy, see www.acura.ca/privacy. Specifications, features, illustrations and equipment shown in this brochure are based upon the latest available information at the time of publication. Although descriptions are believed to be correct, accuracy cannot be guaranteed. Acura Canada reserves the right to make changes at any time, without notice or obligation, in colours, specifications, accessories, materials and models. 2019 RDX model shown in brochure. Some vehicles are shown with optional equipment. Some vehicles shown are U.S. models. Canadian specifications may vary.
