

2017 MAZDA6

DOES DRIVING MATTER?

Does a long, winding road or an empty highway on Sunday morning matter if the car you're driving doesn't take advantage of the moment?

Does safety, technology, efficiency or even beauty matter, if a car doesn't feel right in your hands?

If you build Mazdas, driving is what matters most.

That's why everything we do has one purpose... to make driving better.

Like creating safety technology that inspires confidence.

Engine technology that makes our cars and SUVs more fuel efficient, responsive. And sticky in the turns.

With designs that capture motion, even when the car isn't moving.

What's better than a great driving car?

A car company that won't build anything less.

MAZDA
DRIVING MATTERS

DESIGNED TO TURN HEADS. ENGINEERED TO CHANGE MINDS.

It's no easy feat bringing a concept car to life. But here it is in living sheet metal. The 2017 MAZDA6 is the unforgettable TAKERI show car fully realized - all the way down to its unique Soul Red paint. From captivating headlights to a cabin full of subtle craftsmanship, this refreshed expression of KODO design is just as dynamic at rest as

it is in motion. Uniting exceptional fuel economy and responsive, agile performance under one very beautiful hood, the MAZDA6 is so striking, so well crafted and so invigorating to drive, you'll never go back to ordinary sedans.

EVEN THE PAINT IS INNOVATIVE

Machine Grey Metallic: This new signature paint from Mazda offers the lustre and depth reserved for concept vehicles. Conceived by the creative minds of our designers, this rich hue is the result of a myriad of spray processing innovations.

Aluminum paint flakes align in a uniform pattern that parallels the surface of the MAZDA6's body panels for dramatic hues with intense luminosity and a reflective, liquid-like quality.

魂動
KODO: SOUL of MOTION

A REFLECTION ON PASSIONATE ENGINEERING.

The MAZDA6 is a testament to obsessive engineering down to the simplest detail. To achieve a greater level of precision and artistry, Mazda engineers sculpt every design in hard clay rather than relying solely on computer-aided design. By using special tools crafted by the artists themselves, Mazda is able to produce a design so precise that it measures within a fraction of a millimetre of the engineers' original vision. Extreme craftsmanship? Sure. But at Mazda, defying convention is how we build cars worth driving.

AWARD-WINNING DESIGN.

KODO "Soul of Motion" design blends dynamism and emotional appeal to evoke an intelligent, dignified and spirited poise. Distinctive character lines evoke an artistic, muscular presence, conveying the sense that, like

a wild animal, the whole body is about to leap forward at great speed. And this striking concept did make a leap - straight into the soul of the 2017 MAZDA6.

SKYACTIV TECHNOLOGY

REMARKABLE EFFICIENCY WITHOUT SACRIFICING PERFORMANCE.

At Mazda, creating a better driving experience is our first priority. That means we would never design a vehicle that sacrifices performance for fuel efficiency. Instead, we did the impossible and enhanced both. Our groundbreaking SKYACTIV TECHNOLOGY is a holistic system of innovations that takes the entire car into consideration - from body construction and engine technology to chassis and transmission - to improve the overall driving experience. Power and performance are delivered in abundance. Along with efficiencies that achieve up to an estimated 6.7 L/100 km highway/8.9 L/100 km city.†

UP TO AN ESTIMATED

L/100 KM HWY†

L/100 KM CITY†

6.7 / 8.9

SKYACTIV-G

The high-efficiency 2.5 L SKYACTIV-G engine has a high compression ratio for superior fuel economy, and offers low- and mid-range torque that surpasses the conventional gasoline engine. And thanks to an advanced balance shaft that reduces noise and vibration, the 2.5 L engine is quiet.

SKYACTIV-MT

This six-speed manual transmission has a very short shift throw inspired by the legendary MX-5 Miata. It's also smaller, lighter and stronger than any we've built before.

SKYACTIV-BODY

We are constantly searching for new ways to make you safer behind the wheel. That's why Mazda is the first auto manufacturer to use ultra-high-tensile steel in the vehicle body. Because we crafted an efficient structural design and used ultra-high-tensile steel in critical areas, the MAZDA6's body is lighter than normal, yet it's stiffer and stronger.

SKYACTIV-DRIVE

Our engineers created a precise, high-performance automatic transmission that combines the direct, responsive feel of a manual transmission with the silky smoothness of an automatic. It is instantly responsive, yet delivers 4-7% better fuel efficiency than our previous non-SKYACTIV automatic transmission.

SKYACTIV-CHASSIS

Engineered together with the SKYACTIV-Body to work in perfect harmony, the steering and suspension systems achieve two seemingly contradictory goals at once: To be nimble at low speeds, yet stable at high speeds. We also engineered them to be light, allowing for a more direct and agile feel.

i-ELOOP

The i-ELOOP* regenerative braking system harnesses the MAZDA6's kinetic energy during deceleration, reusing it as electrical energy. Typically, about 10% of an engine's power is converted into electricity and used to power the car's electrical systems. With the i-ELOOP regenerative braking system generating electricity, 100% of the engine's power can be used for propulsion, creating even better fuel efficiency.

mazda.ca/skyactiv

†Estimated fuel economy on the Mazda6 with 6-speed automatic transmission and i-ELOOP. Estimated fuel economy based on Government of Canada's approved, revised 5-cycle testing method. Your actual fuel consumption may vary depending on how, where and when you drive. For comparison purposes only. For more information on revised 5-cycle testing, visit mazda.ca/5cycle.

*Available on the GT model with Technology Package.

MORE CONNECTED IN THE CURVES.

In our endless quest to make the driving dynamics of our vehicles better, our engineers pioneered an all-new technology called SKYACTIV-VEHICLE DYNAMICS and G-Vectoring Control - standard on all MAZDA6 models. Working behind the scenes, it helps achieve a smoother, less fatiguing drive for you and your passengers by subtly

adjusting engine torque and shifting vehicle weight during spirited drives. The result is steering that is more precise and a ride that is less jarring for drivers and passengers alike. Why do we obsess over subtle improvements? Because we believe that by perfecting even the smallest of details, we can make driving better.

MORE CONFIDENCE

Due to irregularities and undulations in the road surface, your vehicle does not always travel along the expected line, forcing you to make steering corrections. With GVC, your MAZDA6 responds to driver input with fewer steering adjustments, so your vehicle behaves as you intend and you enjoy a more confident drive.

MORE COMFORT

Fatigue steadily builds as you continue to make minor steering corrections. GVC helps alleviate these corrections, especially over long distances. Plus, smooth transitions between G forces suppress head and body sway, allowing for a more comfortable ride for you and your passengers.

ENHANCED PEACE OF MIND

GVC enhances handling, stability and the feeling of the tires gripping the road. You'll gain an even greater feeling of control and security during evasive manoeuvres as well as in rain, snow and on poor road surfaces.

AN INSIDE LOOK AT THE FINER POINTS.

Inside the MAZDA6, you'll find more dramatic expressions of our KODO design sensibility. An enhanced cabin richly appointed with premium materials envelops you in sporty refinement, including available leather-trimmed seats†, available power driver's seat*, available heated steering wheel*, and a refined dashboard and instrument panel. The lightweight seat structure increases the overall

rigidity and comfort of the front seats. We've also strengthened insulation and added noise-isolating glass‡ to deliver an exceptionally quiet ride. And by making the seat perforations moderately large and the distances between them small, our engineers created upholstery that's not only soft and breathable, but also absorbs road sounds for an enhanced audio-listening environment.

*Standard on the GS and GT models.

†Leather interior available on the GS model with Luxury Package and the GT model. Nappa leather interior is available on the GT model with Premium Package. Pure white leather and Nappa leather is available by special order. See Specifications and Features section for a full list of interior/exterior colour and fabric combinations.

‡Standard on the GT model.

MORE REFINED THAN EVER

Even in a vehicle as sophisticated as the MAZDA6, we found unique ways to elevate the design. New for 2017, we added a Premium Package, available on the GT model. Inside, subtle details like ambient overhead console lighting, upgraded Nappa leather interior trim and black roof lining add a luxurious touch. Enjoy a leather-wrapped steering wheel with a new distinctive stitch pattern. There are even subtle refinements such as a Titanium-coloured dash strip and accents. All the high-end details that make driving better.

UNLOCK A PERFECT UNION BETWEEN DRIVER AND MACHINE.

To enter the MAZDA 6 is to access an energetic, artistic environment where the driver can relax and completely focus on the road ahead. Everything the driver sees, touches and operates is designed to heighten the driving experience. Tapered forms inside evoke a sense of speed that mimics the energy of the exterior design. Just opening the near perfectly balanced driver's door brings to mind the same feelings you have while seated behind the wheel. And when you're ready to drive, GT models feature a full-colour Active Driving Display that projects critical driving information directly in your field of view, allowing you to process information faster while keeping your eyes focused on the road ahead.

DRIVER'S DELIGHT

Clever A-pillar design helps make getting in and out of the car easy. The lightweight seat structure increases the overall rigidity and comfort of the front seats. Even the sound of the engine is designed to be pleasing, with a harmonic tuning that won't tire the long-distance driver.

DASH YOUR INHIBITIONS

The available colour Active Driving Display[†] helps you take your mind off distractions by projecting critical driving information directly in front of you, right within your line of sight.

- NAVIGATIONAL DIRECTIONS
- i-ACTIVSENSE SAFETY ALERTS
- CRUISE-CONTROL AND TRAFFIC-SIGN DATA

[†]Standard on the GT model.

REAR PASSENGERS NEVER TAKE A BACK SEAT.

Our design team paid close attention to the contrast between high-grade hard and soft materials throughout the cabin for surfaces that just beg to be touched. Even in a driver's car, special attention was paid to the comfort of occupants in the rear, so passengers experience a ride that's spacious and comfortable.

Rear conveniences abound, from standard rear heated seats and rear climate-control vents* to one-litre bottle holders and scalloped front seatbacks for more rear knee room. We even increased the space between the front seat mounts, making it easier for those in the back to slide their feet in. A wider centre armrest in the rear seat accommodates elbows comfortably. And getting out of the MAZDA6 is easier, too, thanks to generous passenger head clearance.

*Standard on the GS and GT models.

COMPLETELY CONNECTED. EFFORTLESSLY ENGAGING.

Our most technologically advanced MAZDA6 is also equipped with our most technologically advanced cockpit. With available MAZDA CONNECT, our next-generation infotainment system, enjoy a host of social-media access, entertainment and information options. All you have to do is pair your smartphone with the MAZDA6 via Bluetooth® wireless connectivity to stream popular social-media, music and infotainment apps. Control the system and view information on the

larger 7-inch, full-colour touchscreen display. Also enjoy access to standard USB audio-input ports and an available navigation system*. And even with all these options, we still help you keep your eyes on the road. All the functions displayed on your touchscreen can also be operated with the HMI Commander switch, conveniently located at your fingertips on the centre console.

ENTERTAIN

Of course AM/FM radio is always a choice, but now there are new ways to explore music and infotainment options via your Bluetooth®-enabled and internet-connected device. With the Aha™ internet radio app, you can connect to your Facebook and Twitter feeds, or you can enjoy offerings from other integrated internet-radio apps such as Stitcher™. Or simply stream your own playlist.

COMMUNICATE

With voice commands, making and receiving calls is as easy as pushing a button and saying "hello." And MAZDA6's standard Bluetooth® hands-free phone and audio streaming capabilities allow you to enjoy fully integrated text-message display and readout†. To reply, simply choose from a number of preset, standardized return messages.

NAVIGATE

Our convenient factory-integrated navigation system* offers the advanced features of today's navigation devices, including voice commands and advanced lane guidance. Plus, getting around town - or out of town - has never been easier thanks to the system's 3D interactive map with step-by-step audio directions.

BOSE® PREMIUM SOUND SYSTEM

The MAZDA6 offers an available 11-speaker Bose® premium sound system featuring Centerpoint® 2 surround† technology. The technology analyzes the stereo signals and converts them to multiple channels, creating a truly immersive sound and enabling listeners to enjoy a surround sound experience, even when playing back signals from digital music sources or radio broadcasts.

SOUND TUNE-UP

Even in a car as quiet as the MAZDA6, unwanted ambient noise can interfere with your enjoyment of music. Bose® AudioPilot® 2 noise-compensation technology† preserves premium listening conditions, even as background noise levels change, providing occupants with a consistent and uninterrupted listening experience. Proprietary digital-signal processing tuned specifically for the MAZDA6 automatically adjusts your music for optimal listening.

*Standard on the GS and GT models.
 †Standard on the GT model.
 ‡Text messaging function is only compatible with certain devices.

i-ACTIVSENSE

THE DARING WAY TO LIVE CAUTIOUSLY.

Mazda's available i-ACTIVSENSE is a thoroughly original way to think about safety technology. Based on the idea that every driver can be a better one, a driver is better able to make smart decisions when given the right information. i-ACTIVSENSE takes an active approach to safety by sensing what the driver cannot easily anticipate. It aids the driver in recognizing hazards, while helping to avoid collisions or reduce the severity when they simply cannot be avoided. Extending the sensory awareness of the person behind the wheel provides peace of mind - and a more enjoyable drive.

HIGH BEAM CONTROL

The High Beam Control* system helps the driver see better at night by maximizing opportunities to use the high beams. The system automatically switches to low beams when it detects oncoming traffic and/or a vehicle ahead.

REAR CROSS TRAFFIC ALERT

When backing up, Rear Cross Traffic Alert† detects a vehicle approaching from the side and promptly alerts the driver with both an audible and visual warning in the side mirror, Active Driving Display and 7-inch touchscreen display. It's especially helpful at night when visibility is poor.

ADVANCED BLIND SPOT MONITORING

When the MAZDA6 is in motion, radar sensors detect objects in your left or right blind spots‡. If you signal a lane change while an object is there, a light in your corresponding side mirror and Active Driving Display blinks and a warning chime sounds.

SMART CITY BRAKE SUPPORT

When travelling at speeds between 4–30 km/hour, the Forward Sensing Camera (FSC) detects objects ahead and Smart City Brake Support† prepares the vehicle by adjusting brake pads closer to the disc. If no driver action is taken, the system automatically applies the brakes.

SMART BRAKE SUPPORT

Similar to Smart City Brake Support, the available Smart Brake Support* is intended to help avoid or reduce the severity of a collision, but operates at higher rates of speed. The Collision Warning feature will alert the driver that braking is immediately necessary. If the radar sensor and Forward Sensing camera (FSC) sensor determines that a collision is unavoidable, automatic brake control is performed to help reduce damage in the event of a collision.

MAZDA RADAR CRUISE CONTROL

Mazda Radar Cruise Control* judges the relative speed and distance to the car ahead, and works within a set speed range to maintain a safe following distance. The system's Close Proximity Warning provides audible and visual warnings when it senses a fast approach to the vehicle ahead.

DISTANCE RECOGNITION SUPPORT SYSTEM

At speeds above 30 km/hr, the Distance Recognition Support System* measures the distance between your vehicle and the vehicle ahead and recommends a comfortable following distance. If your vehicle encroaches on this distance, a warning light illuminates.

LANE DEPARTURE WARNING SYSTEM

The Lane Departure Warning System* automatically senses lane markings on the road and alerts the driver when it predicts the vehicle is going to unintentionally depart from its lane.

LANE-KEEP ASSIST SYSTEM

Available Lane-keep Assist System* adds to the warnings of the Lane Departure Warning System. When it senses a potential unintentional lane departure, it will perform minor steering corrections to help guide your vehicle back to the centre of the lane.

TRAFFIC SIGN RECOGNITION SYSTEM

Using strategically mounted cameras, Traffic Sign Recognition‡ can actually read road signs such as speed limit, do not enter and stop signs. This information then shows up in the colour Active Driving Display so you can stay alert and informed without taking your eyes off the road.

*Available on the GT model with Technology Package.

MAZDA6 ACCESSORIES. IT'S YOUR MAZDA - MAKE IT YOUR OWN.

Customize your new MAZDA6 with Genuine Mazda Accessories. When installed by your Mazda Dealer prior to or at initial vehicle retail delivery, Genuine Mazda Accessories carry the same new-vehicle limited warranty as your new Mazda. Ask your dealer for details.

CARGO TRAY

Life doesn't have to be messy, at least not inside your MAZDA6. This flexible, durable Cargo Tray* protects against spills and other damage. Removes easily for quick cleanup.

REAR BUMPER GUARD

Tailored and sleek, our durable stainless steel Rear Bumper Guard not only looks great, but helps protect the rear bumper from chips and scratches.

DOORSILL TRIM PLATES

A touch of class coming and going. Dress up your MAZDA6 with these stylish Doorsill Trim Plates.

ALL-WEATHER FLOOR MATS

Fitted perfectly to your MAZDA6, these All-Weather Floor Mats guard against water, sand, mud, snow or whatever you drag through the door.

NAVIGATION

Enjoy all the advanced features of today's navigation devices, including voice commands and advanced lane guidance with our factory-integrated navigation system. The system even offers a 3D interactive map with step-by-step audio directions.

MAZDA MOBILE START

Enhance your driving experience with Mazda Mobile Start - the only Smartphone Remote Engine Start system engineered specifically for your MAZDA6. Start, Lock/Unlock, activate your climate control, and find your car from virtually anywhere. Ask your dealer for details.

VISIT MAZDA.CA FOR ACCESSORY OPTIONS.

UNLIMITED MILEAGE WARRANTY**

MAZDA VEHICLES ARE DESIGNED TO BE DRIVEN, AND TO PROVE IT, WE'VE INTRODUCED MAZDA UNLIMITED - THE ONLY WARRANTY PROGRAM OF ITS KIND IN CANADA.

Mazda Unlimited features unlimited mileage for our 3-year New Vehicle, 3-year Roadside Assistance, 5-year Powertrain and 7-year Anti-Perforation warranties, so you can focus on every thrilling moment spent behind the wheel instead of the odometer.

Standard on all new models.

What does Mazda Unlimited mean for you?

- Added confidence in the quality of the product you are driving
- Added protection, knowing Mazda will be there, kilometre after kilometre
- Added value, knowing that if you ever sell, trade or upgrade to a new vehicle during the warranty period, **Mazda Unlimited** will be transferable to the new owner
- Added peace of mind, knowing that there are no limits to how far you can go

To learn more about the Mazda Unlimited Warranty, visit mazdaunlimited.ca.

WE KNOW YOUR FIRST IMPRESSION OF MAZDA STARTS WITH US, YOUR MAZDA DEALER.

It's a responsibility we don't take lightly. It's why we work hard every day to make sure your customer service experience exceeds your expectations, in every way.

From the factory to your first test drive, and to every drive you'll ever make in a Mazda, we're here to make driving better.

BECAUSE DRIVING MATTERS.

FINANCING WITHOUT THE FUSS Whether you're buying or leasing a new Mazda, or a used vehicle, Mazda Financial Services can help make the financing process more convenient and satisfying. Mazda Financial Services is known for first-class customer service, a wide range of financing options and highly competitive rates. To find out which purchase or lease plan is right for you, talk with your Mazda Dealer or visit mazda.ca.

MAZDA ROADSIDE ASSISTANCE PROGRAM As part of our commitment to your total satisfaction, 2017 MAZDA6 owners are automatically enrolled in our Roadside Assistance Program. Roadside Assistance protects your MAZDA6 for the duration of the 3-year basic limited warranty. Should you require assistance during this period, our service will help to get your vehicle back on the road and minimize any inconvenience. For complete details on this program, see your Mazda Dealer or visit mazda.ca.

MAZDA MOBILITY ASSISTANCE PROGRAM Mazda Canada believes that vehicle access is vital for everyone. Under this program, physically challenged customers who purchase or lease a new, unused Mazda vehicle may be eligible to receive assistance from Mazda Canada Inc. to aid with the cost of acquiring and installing adaptive driving aids on their vehicle. For complete details on this program, see your Mazda Dealer.

MAZDA TEST-DRIVE EXPERIENCE Exhilaration begins with the **Mazda Test-Drive Experience** - a uniquely designed road trip engineered to take you miles beyond the ordinary test-drive. Down local streets, on-ramps, highways and off-ramps. Through straightaways, S-curves and corners. It's all about putting a Mazda to the test under real-world conditions. It's about discovering the superb acceleration, braking, steering, handling and ride quality that every Mazda offers. And rediscovering that fun, connected-to-the-road feeling we call Zoom-Zoom.

READY TO ROLL Our pre-delivery commitment means every new Mazda is inspected, gassed up and fitted with floor mats.

**ADDED
PROTECTION**

For peace-of-mind motoring, we've created Mazda Added Protection Plan (M.A.P.) extended warranty plans. M.A.P. plans complement your Mazda Limited Warranty and protect you from unexpected repair expenses and the rising cost of repairs. All M.A.P. plans include Personal Budget and Repair Inflation Protection. In addition, all M.A.P. plans include Premium Roadside Assistance, Tire Road Hazard coverage and OEM Collision Part Coverage. Premium Roadside Assistance extends the roadside assistance coverage offered during the new-vehicle limited-warranty period throughout the M.A.P. term. The Premium Roadside Assistance offers Towing, Winching, Battery Boost, Out-of-Fuel Coverage, Tire Service, Lockout Service, Emergency Travel Expense Reimbursement and Travel Planning and Dealer Locator. Should you ever decide to sell your Mazda vehicle, M.A.P. is transferable to future owners and will enhance the resale value of your vehicle. The Mazda Added Protection Plan is fully backed and administered by Mazda Canada Inc. For more information, please contact your Mazda Dealer.

**GRADUATE
PROGRAM**

Ask your dealer about Mazda's competitive program for recent university and college graduates.

Product changes and options availability: Following publication of this brochure, certain changes in standard equipment, options, prices and the like, or product delays may have occurred which would not be included in these pages. Your Mazda Dealer is your best source for up-to-date information. Mazda reserves the right to change product specifications at any time without incurring obligations. Options and accessories shown or described in this brochure are available at extra cost and may be offered only in combination with other options or subject to additional ordering requirements or limitations.
