TLX

+ + + +

Performance is in our DNA, and we believe it's best achieved when the car responds instantly and instinctively to the driver. When you no longer have to think about asserting control, and instead feel it. The rush. The exhilaration. The sensation of feeling simultaneously one with the car and road. It's what driving was meant to be. And it's what Precision Crafted Performance is all about.

This is the 2018 Acura TLX. And this is how we make it.

 **ACURA**
PRECISION CRAFTED PERFORMANCE

TLX V-6 SH-AWD with A-SPEC Package shown in Bellanova White Pearl.

DIFFERENT BY

DESIGN

+ + + +

From the beginning, it's been our goal to create performance vehicles with an unrivaled level of precision. Every detail meticulously crafted, and all with the single-minded goal of designing the world's most cutting-edge, experience-boosting, driver-first performance vehicles.

EXTERIOR DESIGN

Inspired by the Acura Precision Concept, the 2018 TLX was reimagined to reflect the bold and distinctive future of Acura vehicles. Highlighted by our new Diamond Pentagon Grille and featuring a low, wide stance that prioritizes precision handling, the aggressively redesigned TLX delivers a sporty and modern look that speaks to the exhilarating performance to be had behind the wheel.

The V-6 with Advance Package provides even more elevated design features, such as 18-inch, pewter-gray, machine-finished, fifteen-spoke wheels; LED fog lights; a body-colored rear spoiler; and rectangular dual-exhaust outlets.

JEWEL EYE LED HEADLIGHTS

Whether you're on the racetrack or a road trip, how far ahead you can see affects everything. Jewel Eye® LED headlights are standard on every Acura and provide impressive down-road visibility with an intense, wide beam of light designed to mimic natural sunlight—the light our eyes are designed to see in. The result? Less fatigued driving, clarity, and more vivid colors.

TLX V-6 with Advance Package shown in Bellanova White Pearl.

TLX V-6 SH-AWD with Advance Package shown with Espresso interior.

Dark Burl wood-finished and metal trim.

V-6 ADVANCE

INTERIOR DESIGN

The cockpit of the 2018 TLX was designed to support the driver and front passenger by creating a personal sanctuary where every performance-inspired detail is deliberate and intuitive. The center stack features two display screens, one dedicated to phone, navigation, and information, and a second that is touch-friendly and controls audio and climate functions.

Available premium sport seats with contrast stitching and piping details provide ample support when cornering and comfort when cruising, while the V-6 with Advance Package delivers heated rear seats, a heated steering wheel, and white ambient cabin accent lighting that creates an environment for an unmatched driving experience.

A SPEC

Engineered to attack the turns, the A-SPEC® Package's upgraded performance features include 19-inch Shark Gray split five-spoke wheels with road-grabbing 245-section tires, along with retuned steering and suspension.

The available A-SPEC Package takes the TLX's bolder, sportier design to another level with performance-driven details that include our signature Diamond Pentagon Grille with unique dark-chrome surround and gunmetal mesh, a front bumper with oval fog lights, a rear bumper with a piano-black diffuser and dual oval exhaust outlets, a piano-black rear spoiler, smoked headlights and taillights, side sills, A-SPEC badging, and optional exclusive Still Night Blue Pearl color.

Step into the driver's seat to find either an all-red leather or an Ebony leather with Alcantara-trimmed interior, sport A-SPEC seats with more aggressive side bolsters, a unique A-SPEC steering wheel, a black headliner, red accent lighting and instrumentation, brushed-aluminum metal-look trim, and A-SPEC badging.

- a. Red instrument illumination.
- b. Sport A-SPEC seats with premium Alcantara-trimmed interior with contrast stitching and piping.
- c. Exclusive A-SPEC rear bumper with diffuser and exposed dual exhaust finishers.
- d. Dark-chrome taillights, a piano-black decklid spoiler, and A-SPEC badging.

TAKE

CONTROL

While the TLX's available 290-hp V-6 and 206-hp inline-4 definitely get it done in a straight line, the TLX was built for the corners. We believe cars should respond instantly and instinctively to the driver's input, and with innovative handling technologies such as Precision All-Wheel Steer,[™] available Super Handling All-Wheel Drive,[™] and Agile Handling Assist,[®] the 2018 TLX delivers a direct connection to both car and road.

IDS

INTEGRATED DYNAMICS SYSTEM

Our Integrated Dynamics System (IDS) delivers four modes of Precision Crafted Performance. If you're looking to raise your pulse, Sport mode dials up throttle response, increases shift points, and weights the steering to deliver a sports car-like feel while inciting a more aggressive response from the P-AWS® or SH-AWD® systems. Sport+ pushes it further with even higher shift points and rev-matched downshifts to punctuate gear changes and preserve balance.

And for an even more engaging experience, put full manual control of either the 8-speed Dual-Clutch or 9-speed transmission at your fingertips with race-inspired Sequential SportShift paddle shifters.

TLX V-6 SH-AWD with A-SPEC Package shown in Bellanova White Pearl.

290-HP V-6

For those looking for more exhilaration behind the wheel, the 3.5-liter i-VTEC® V-6 paired with the smooth-shifting 9-speed automatic provides 267 lb-ft of tarmac-punishing torque, delivering instant power and an always dynamic driving experience.

SUPER

SONIC

206-HP 4-CYLINDER

The sporty and high-revving 2.4-liter DOHC i-VTEC engine matched with a world's-first automotive 8-speed Dual-Clutch Transmission (DCT) with torque converter delivers lightning-fast yet smooth gear changes for direct and responsive performance.

P - A W S

PRECISION ALL-WHEEL STEER

Precision All-Wheel Steer (P-AWS) takes advantage of the untapped steering potential of the rear wheels, adapting intuitively in support of the driver and responding to their inputs with constant and immediate adjustments. This intelligent, world's-first system adjusts the toe angle of each rear wheel independently for increased agility and stability while cornering, changing lanes, and braking, delivering an unprecedented level of handling precision and performance.

TWIST

TURN

AGILE HANDLING ASSIST

Agile Handling Assist uses active braking to aid in the accurate tracing of your desired line through a turn. The system can brake individual wheels as needed, effectively using brake torque vectoring to directly control the vehicle's rotation, delivering a more intuitive handling experience.

A DIRECT
CONNECTION
BETWEEN
DRIVER
AND CAR

TLX V-6 SH-AWD with A-SPEC Package shown in Still Night Blue Pearl.

SH-AWD

SUPER HANDLING ALL-WHEEL DRIVE

Available Super Handling All-Wheel Drive was designed to adapt to the driver for superior handling under almost any condition. This innovative torque-vectoring system sends power to the wheels that need it most, distributing power from front to back, or side to side on the rear wheels, to match driver input, weight distribution, and available traction. In a corner, the system sends up to 100 percent of the rear power to the outside wheel, effectively rotating the car and significantly enhancing maneuverability and control. This groundbreaking performance technology provides seamless power transitions and supreme control.

Cornering

When cornering on dry surfaces, up to 70 percent of the torque is distributed to the rear. Torque vectoring allows up to 100 percent of that power to distribute to the outside rear wheel, improving control and helping rotate the TLX through the turn.

Lane Change

For increased stability during lane changes, the SH-AWD system transfers power to the inside rear wheel.

Slippery Road

Under slick conditions, SH-AWD actively sends power to the wheel with the most traction.

Highway Cruise

For better fuel efficiency, up to 90 percent of the power is sent to the front wheels when cruising in a straight line.

TLX V-6 SH-AWD with Advance Package shown in Bellanova White Pearl.

+ + + +

Safety is our greatest priority, and the 2018 TLX was built with that belief in mind. Full of leading-edge safety features such as our ACE™ body structure and standard AcuraWatch™ advanced safety and driver-assistance technology, the TLX received the highest possible overall safety rating from the National Highway Traffic Safety Administration (NHTSA).¹

STREET

SMART

AcuraWatch

Equipped with AcuraWatch, the TLX is the only vehicle in its class to come standard with a full suite of advanced, active safety and driver-assistance technologies. AcuraWatch is a network of systems designed to increase awareness and support the driver, working to help prevent, avoid, and mitigate impacts.

Sensors continuously monitor the vehicle's surroundings and can warn of potential threats, provide steering input to help keep you in the center of a detected lane, help brake to maintain a set interval from cars ahead, and emergency-brake to help avoid frontal collisions.

In addition, our available Surround-View Camera System gives you a 360-degree view of the space around the TLX. With six unique camera views, parking sensor information, and dynamic guidelines that show your expected path, you'll feel more connected to your surroundings than ever before.²

ACE BODY STRUCTURE

Acura's Advanced Compatibility Engineering™ (ACE) body structure is designed to absorb and disperse frontal impact energy so less force is transferred to what really matters: the people inside. But we didn't stop there. Crash compatibility is designed into the structure as well, so in the event of a frontal collision, the occupants of all vehicles involved are better protected.

ACE incorporates extra bracing at the front corners (yellow) to absorb and distribute impact energy from narrow-offset collisions to the primary crash structure.

The outer braces (red) are designed to transfer impact load toward the center of the frame, where the energy can be distributed around the cabin area more evenly.

This enhanced frontal-crash-energy management helps reduce the forces transferred to the reinforced cabin (blue) and can help to more evenly disperse the forces transferred to other vehicles in a collision.

STRONGER

PASSENGER AIRBAG

+ + + +

Technology bridges the gap between car and driver—and not technology for technology's sake—to enhance the driving experience. Our definition of performance extends beyond traditional standards, encompassing ergonomics, sound, advanced connectivity, and comfort, and with new available features such as heated outboard rear seats, wireless device charging, four-door smart entry, and a heated steering wheel, it can be felt the moment you climb into the TLX's driver's seat.

STAY

CONNECTED

**ELS STUDIO PREMIUM
AUDIO SYSTEM**

To build the best, you need to work with the best, which is why we collaborated with eight-time Grammy® award-winner Elliot Scheiner to create the critically acclaimed ELS Studio® Premium Audio System. Whether you're listening over the airwaves, streaming digitally, or enjoying your own music library, ELS Studio was designed to produce music as it's meant to be heard, so even the most familiar tunes will become a whole new listening experience. The result is the perfect combination of engineering and artistry, and it's totally unique to Acura. Yet another example of Precision Crafted Performance.

ODMD

ON DEMAND MULTI-USE DISPLAY

The On Demand Multi-Use Display™ (ODMD™) provides everything you need right at your fingertips. An easy-to-use and intuitive 7-inch touchscreen, ODMD consolidates the controls and information you may need at any given moment, including audio, climate control, and phone.

TECH

TUNES

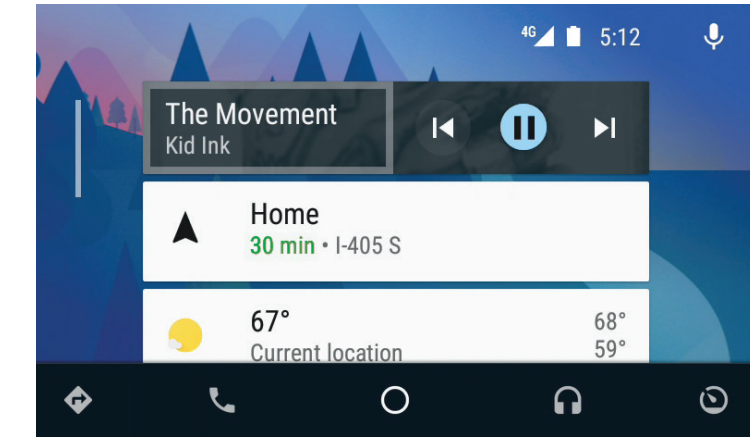

APPLE CARPLAY & ANDROID AUTO

The TLX supports both Apple CarPlay™ and Android Auto™, keeping you connected to everything you love about your smartphone, including maps, texts, emails, music, and more, all seamlessly and safely integrated into your TLX, so you can stay focused on the road.

APPLE CARPLAY

Place the power of your iPhone® in your dash with Apple Carplay. A redesigned OS seamlessly integrates your iPhone with the car's built-in display and controls, so you can make calls, access your music, send and receive messages, get directions, seamlessly tap into the power of Siri® with the press of a button with Siri Eyes Free, and more.¹¹

ANDROID AUTO

Android Auto brings the Android™ experience to your car by projecting all your favorite apps and services right onto the TLX's touchscreen display, and it's highlighted by an intuitive interface that populates suggested directions, upcoming appointments, and weather conditions, to name a few. The powerful new Talk to Google voice feature allows you to access directions via Google Maps™, send and receive text messages, and access your favorite music, providing an easier way to get the information you need, when you need it.¹⁰

PANDORA® COMPATIBILITY | SIRIUSXM® SATELLITE RADIO | HD RADIO®
FACEBOOK UPDATES | TWITTER UPDATES | SLACKER® RADIO | NPR® NEWS
TEXT MESSAGE & EMAIL FUNCTION | HUNGRY, POWERED BY YELP | WEATHER
FUEL | PARKS | HOTELS FROM TRIPADVISOR® | LOCAL SEARCH | DESTINATION
LINK™ | EMERGENCY ASSIST | AUTOMATIC COLLISION NOTIFICATION | LIVE
CONCIERGE LINK | SEND TO CAR | VEHICLE STATUS

It's not enough to simply be connected anymore; we need tools that work harder for us. Beyond conventional navigation, available AcuraLink® seamlessly connects you to the information and media you want.* Pair it with your smartphone to keep up on emails, texts, and tweets;¹² find a new restaurant, plan your weekend adventures, and drive with the assurance of AcuraLink Assist services.¹³

If traffic backs up, available AcuraLink Real-Time Traffic™ pulls surface-street information and can reroute you for a faster commute. And for the most demanding drivers, Live Concierge Link puts personal assistants at your fingertips, night and day, to ensure that all your journeys go off stress-free.¹³

1 Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program. For additional information on the 5-Star Safety Ratings program, please visit www.safercar.gov. 2 The system is not a substitute for your own visual assessment before backing up; system accuracy will vary based on weather, size of object, and speed. 3 FCW cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed, and other factors. System operation affected by extreme interior heat. FCW does not include a braking function. Driver remains responsible for safely operating vehicle and avoiding collisions. 4 Depending on the circumstances, CMBS may not go through all the alert stages before initiating the last stage (of collision mitigation). CMBS cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed, and other factors. System operation affected by high interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions. 5 LKAS (Lane Keeping Assist System) and LDW (Lane Departure Warning) only alert drivers or operate when lane drift is detected without a turn signal in use. LDW and LKAS may not detect all lane markings or lane departures; accuracy will vary based on weather, speed, and road conditions. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions. 6 Adaptive Cruise Control (ACC) with Low Speed-Follow cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed, and other factors. ACC should not be used in heavy traffic, poor weather, or on winding roads. The driver remains responsible for avoiding a collision. 7 The system is not a substitute for your own visual assessment before changing lanes; system accuracy will vary based on weather, size of object, and speed. 8 Always visually confirm that it is safe to drive before backing up; the rearview camera display does not provide complete information about all conditions and objects at the rear of your vehicle. 9 Always visually confirm that it is safe to drive; the camera display does not provide complete information about all conditions and objects around your vehicle. 10 Requires Android phones with Android 5.0 Lollipop or higher. Using the USB cable that was provided with your phone is recommended. When Android Auto™ is active, your in-vehicle voice recognition system will be disabled, and all requests will be made using Google voice actions. Android Auto™ features may operate differently than on your phone. Apps use your smartphone data service. Normal cellular service rates will apply. Message and data charges may apply when using Android Auto. Compatibility with third-party apps is not guaranteed. Distracted driving can result in a loss of vehicle control. Never use a handheld device or system that takes your focus away from safe vehicle operation. 11 For use with Apple iPhone® devices only. Requires iPhone 5 or later, and it is recommended that you always update your iPhone to the latest iOS release. It is recommended that you use the Apple Lightning cable provided with your phone or an Apple certified Lightning cable. Cellular service rates apply. Distracted driving can result in a loss of vehicle control. Never use a handheld device or system that takes your focus away from safe vehicle operation. 12 Based on compatibility. Cellular connection required. Your wireless carrier's rate plans apply. See your dealer for details. 13 Certain AcuraLink services are available only where compatible cellular and GPS coverage is available. Subscription agreement required to enroll and terms and conditions of subscription agreement apply to services. Standard text rates and/or data usage may apply to communications received by email or SMS/text message. Visit your dealer or acura.com/acuralink for more information on standard and available features. 14 Based on 2018 EPA mileage ratings. Use for comparison purposes only. Your actual mileage will vary depending on how you drive and maintain your vehicle, driving conditions, battery pack condition and age, and other factors. 15 Use of lower-octane gasoline can cause an occasional metallic knocking noise in the engine and will result in decreased engine performance. Use of gasoline with a pump octane less than 91 can lead to engine damage. 16 Siri® is available on iPhone® 4s or later, iPad® with Retina® display, iPad mini™, and iPod touch® (5th generation) and requires internet access. Siri® may not be available in all languages or in all areas, and features may vary by area. Cellular data charges may apply. Some features may not be available for all countries or all areas. 17 Visit www.handsfreelink.com for a list of compatible phones and available features. Compatible with select phones with *Bluetooth*® technology. Your wireless carrier's rate plans apply. 18 SiriusXM services require a subscription after any trial period. If you decide to continue your SiriusXM service at the end of your trial subscription, the plan you choose will automatically renew and bill at then-current rates until you call SiriusXM at 1-866-635-2349 to cancel. See our Customer Agreement for complete terms at www.siriusxm.com. Fees and programming subject to change. XM satellite service is available only to those at least 18 years of age in the 48 contiguous United States and D.C. 19 Compatible with select smartphones. See: www.pandora.com/everwhere/mobile. Not all devices are compatible with USB connection. Your wireless carrier's rate plans apply. 20 The USB Audio Interface is used for direct connection to and control of some current digital audio players and other USB devices that contain MP3, WMA, or AAC music files. Some USB devices with security software and digital rights-protected files may not work. Please see your Acura dealer for details on compatibility. Windows Media® is a trademark or registered trademark of Microsoft Corporation in the United States and/or other countries. 21 Based on 2018 EPA mileage ratings. 23 city/33 highway/27 combined mpg rating for TLX 4-cylinder FWD.
